Laboratory Technician

TechLab, Inc. develops, manufactures and distributes medical diagnostic tests. This company places emphasis on science and collaboration with Universities. We are looking to add a **Laboratory Technician** to our team.

An employee in this position can expect to perform the following duties:

- Draft and run experiments
- Write and follow Standard Operating Procedures
- Interpret and understand results from experiments
- Run Medical diagnostic devices
- Trained by other scientists/ research team members
- Compare and normalize data achieved through experiments performed
- Measure chemical compounds and solutions
- Work out calculations
- Research and read literature recommended from other team members
- Use basic lab equipment
- Document all procedures and techniques used in a lab notebook
- Make reagents necessary for Research and Development as well as Product and Process Development
- Work with pathogens and fecal specimens
- Utilize aseptic techniques to prevent contamination
- Comply with all safe working practices per the safety manual
- Follow all safety procedures

TechLab offers a competitive salary with excellent benefits. This position requires candidates to possess a Bachelor's degree in a life science field or equivalent experience. Interested candidates should send a resume to **careers@techlab.com**, Blacksburg, Virginia 24060. EOE.
