Senior Production Technician

TechLab, Inc. develops, manufactures and distributes medical diagnostic tests. This company places emphasis on science and collaboration with Universities.

We are looking to add a **Senior Production Technician** to our team.

An employee in this position can expect to perform the following duties:

- Review production schedule to determine daily product needs
- Make solutions necessary for production
- Read and understand Master Batch Records as well as Standard Operating Procedures
- Perform calculations according to Master Batch Records
- Identify chemical hazards
- Identify expired chemicals
- Stock lab consumable supplies
- Provide Quality Control department with component samples
- Assess the need for heat inactivated serum for solutions
- Perform necessary serum heat inactivations
- Coordinate with internal departments
- Write Document Circulation Requests for outdated Master Batch Records
- Ensure chemicals are appropriately stocked

TechLab offers a competitive salary with excellent benefits. This position requires candidates to possess a Bachelor's degree in a science field. Interested candidates should send a resume to **careers@techlab.com**
