Quality Control Technician 1

TechLab, Inc. develops, manufactures and distributes medical diagnostic tests. This company places emphasis on science and collaboration with Universities. We are looking to add a Quality Control Technician 1 to our team.

An employee in this position can expect to perform the following duties:

- Perform predispose and final quality control testing
- Perform incoming chemical and non-chemical raw material testing
- Follow Standard Operating Procedures
- Perform in-process testing of membrane devices
- Perform verification of coded foil labels
- Work with biological samples
- Utilize good aseptic technique in the lab
- Report quality problems to manager/designee
- Manage and record component retentions
- Perform water testing for both Blacksburg and Radford facilities
- Stay up to date with required readings
- Comply with all safety regulations
- Calibrate pH meter and conductivity meter
- Perform stability testing
- Perform mathematical calculations
- Test all kit components per product release standards (bioburden, functionality, physical characteristics)

TechLab offers a competitive salary with excellent benefits. This position requires candidates to possess a Bachelor's degree in a scientific field or an Associate's degree with 2 years of relevant experience. Interested candidates should send a resume to careers@techlab.com, Radford, Virginia 24141. EOE.
